

AK Interconnect Inc.

Connector Types and Part Numbering

Rubber Molded Plug with Molded Tip (MT)	Cable Accommodation
AK400MT-1	4-1/0 single conductors, 2-12 awg control wire
AK400MT-2	4-2/0 single conductors, 2-12 awg control wire
AK400MT-3	Single jacket cable (1.55" - 1.75" OD)
Rubber Molded Plug with Replaceable Tip (RT)	Cable Accommodation
AK400RT-1	4-1/0 single conductors, 2-12 awg control wire
AK400RT-2	4-2/0 single conductors, 2-12 awg control wire
AK400RT-3	Single jacket cable (1.55" - 1.75" OD)

*Add "J" to the part number if E&F control circuit requires jumper (eg. "AK400RT-3J")

We have 33,000 square feet in 2 buildings. Although our buildings are old, we have a very modern facility the latest cable handling and process equipment. Our presses were custom built for molding aircraft GSE connectors.

AK Interconnect Inc.

Molded Plug with Molded Tip (MT)
Available with either single jacket or banded cable

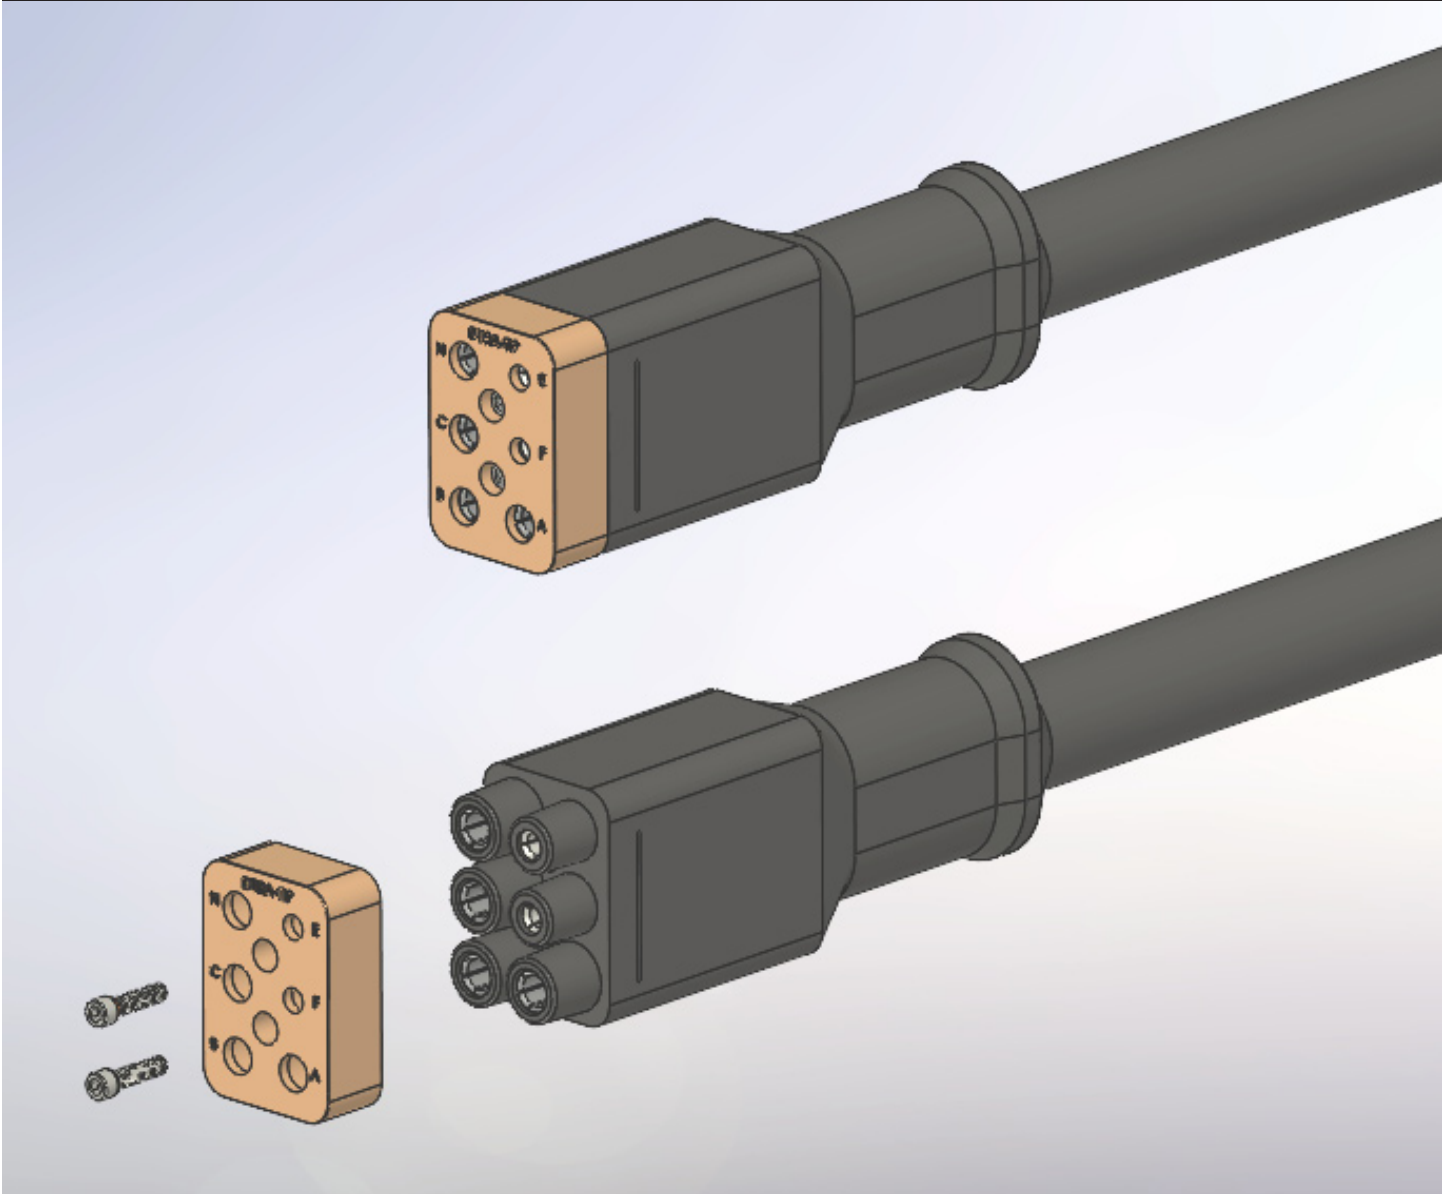

Single Jacket or Banded Cable

- Molded Tip (MT)
- Excellent abrasion resistance
- Ergonomic grip
- Low resistant/high current socket contacts
- High quality rubber molding w/ strain relief
- Meets connector performance of SAE-AS7974 and ISO-461

AK Interconnect Inc.

Molded Plug with Replaceable Tip (RT)
Available with either single jacket or banded cable

Replaceable Tip (RT)

- Replaceable Tip (RT)
- Excellent abrasion resistance
- Ergonomic grip
- Low resistant/high current socket contacts
- High quality rubber molding w/ strain relief
- Meets connector performance of SAE-AS7974 and ISO-461
- Easily replaceable tip section
